SUMMARY

Senior Product Designer, 8 years across fintech, marketplace, and agency work, who builds design systems engineering actually adopts and ships 0→1 products end-to-end. Shipped a 120-component system across 5 product teams, lifting feature adoption ~32%, and led an onboarding redesign that cut first-week drop-off from 41% to 24%. Research-driven, eng-fluent IC who mentors without a manager title.

EXPERIENCE

Senior Product Designer

Mar 2021 – Present

Beacon Financial | Austin, TX (remote)

- Built Beacon's design system from scratch, 120 tokenized Figma components + a Storybook library, adopted by 5 product teams and lifting new-feature adoption ~32%.
- Brought the library to WCAG 2.1 AA and drove a design-engineering partnership through implementation, cutting spec-drift defects ~44%.
- Established design-system governance and a contribution model, consolidating 40+ ad-hoc patterns so teams extend the system instead of forking it.
- Redesigned the B2B partner dashboard from funnel and survey data, lifting product NPS from 22 to 41; mentors 3–4 designers and runs crits.

Product Designer

Jun 2018 – Feb 2021

Atlas Mobility | Austin, TX (hybrid)

- Designed the driver-onboarding flow 0→1 (research through ship), cutting first-week drop-off from 41% to 24% across ~40k monthly signups.
- Ran 130+ moderated usability sessions over three years to steer marketplace roadmap decisions.

UX Designer

Jul 2016 – May 2018

Verdant Labs | Austin, TX

- Delivered 0→1 designs for 7 agency client engagements across SaaS, retail, and healthcare, and a retail self-checkout concept shipped to pilot.

PROJECTS

Beacon Design System

2021 – Present

Design-systems owner

120 components, tokens, Storybook, WCAG 2.1 AA; ~32% adoption lift on adopting teams.

EDUCATION

Atlas State University

2016

B.F.A., Communication Design | Austin, TX
